Project Name	Heritage Treasures: An In-Depth Analysis of UNESCO World Heritage Sites in Tableau
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in the proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	UNESCO World Heritage data is currently fragmented, static, and different for users to analyse, leading to a lack of insights into cultural and geographical trends.
2.	Idea / Solution description	An interactive Tableau dashboard that centralizes UNESCO data, providing users with dynamic map visualizations, trend filtering, and site-specific insights.
3.	Novelty / Uniqueness	It transforms static lists into a highly intuitive, exploratory visual journey that allows for real-time comparative analysis of heritage sites.
4.	Social Impact / Customer Satisfaction	Increases accessibility to heritage knowledge for students, researchers, and travelers;

		provides a more engaging user experience.
5.	Business Model (Revenue Model)	As a public-facing educational project on Tableau Public, it operates on a free-access model aimed at knowledge dissemination rather than direct revenue generation.
6.	Scalability of the Solution	The dashboard architecture is designed to integrate new datasets easily, allowing it to scale as more heritage data becomes available.
